

Invitation to participate in a private funding program
Accessible to promoters of sustainable development projects

Terms: after verification of the received information, the applicant will receive the investment contract specifying the name of the bank and the number of the trust account opened in his name, where he will have to transfer if necessary the amount he wishes to dedicate to this transaction (this amount will be returned to him at the end of the program, one year after the date of implementation of the program, unless the applicant wishes to participate in a additional program).

This is available due to a facility called "Fractional Bank Reserve" which allows banks to generate credit from a guaranty deposit and a leverage effect which allows their trading platforms to generate high profits for qualified applicants. The level of return will be specified to the applicant after analyzing his request and submitting the one-year participation agreement to sign.
